

Ronnie Cheung

Toronto, ON • (647) 828-3666
ronniech@outlook.com

Summary

I am a front end web developer with over five years of experience developing and maintaining responsive web applications using the latest front end technologies. My educational and professional background, which has included subjects such as back end development, business analysis and UX design, has provided me a broad pool of knowledge that I have been able to draw upon to provide a unique perspective and approach to problem solving.
